MEMORANDUM FOR: Deputy Director/Intelligence

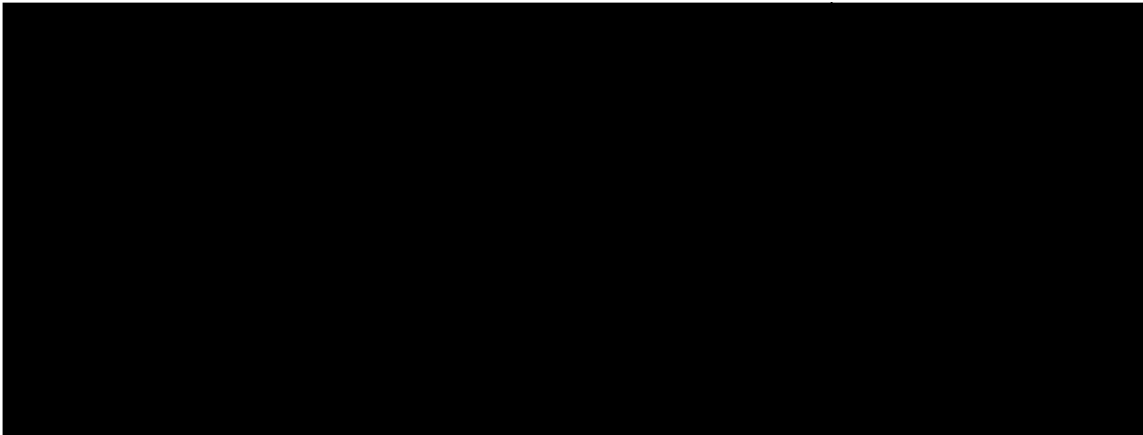

SUBJECT : Preparation of Contributions to NIS
Reports, Section 45, Health & Sanitation, by PHS, HEW

1. PROBLEM

25X1A [REDACTED] PHS, HEW for the preparation of contributions to NIS, Section 45 Health and Sanitation reports and other background material.

2. DISCUSSION

a. Under the NIS production responsibilities assigned to the Medicine Division, OSI, there are eight reports on various countries due each year. External assistance is needed to produce this section because (1) it is a newly assigned responsibility, (2) trained personnel are not available within the Medicine Division's present T/O ceiling to perform the required research, and (3) previously established deadlines must be kept.

d. Within the period 1 January 1956 through 30 June 1956, the PHS will complete two contributions to Section 45, probably for Pakistan and Saudi Arabia. In succeeding fiscal years, PHS will contribute to four sections of Section 45 each year. Countries will be determined by NIS scheduling.

e. Informal coordination has been effected with [REDACTED]

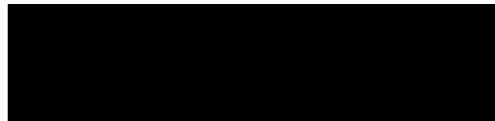

25X1A9a [REDACTED]
Coordinator, D/A; and Daniel J. Clinton, Coordinator, OIR/NIS, Department of State. The project proposal also has been reviewed by [REDACTED] PCS/DCI, who indicated no further coordination was required. [REDACTED] brought the project to the attention of OCR/LD, which will be furnished a copy of this project.
